ABI TDO Colour Removal Instructions

GENERAL INFORMATION

TDO Colour Remover can be used to remove the colour from most cotton, rayon, linen, wool, silk and blends which have been dyed with fiber reactive dyes (procion) or direct dyes. Not all colours will come out 100%, but they can all be lightened enough for over-dyeing. It can also be used to strip colour from yarns, fabrics or already sewn clothing. It will not necessarily remove all the colour of all types of dyes from all types of fabrics. It is always best to first do a test before using it on something of considerable value to you

DIRECTIONS FOR PROCESSING

The instructions below are for one pound of fabric. You can divide or multiply to suit your requirements. Just pro rate it.

For every pound of fabric put into a pot:

- **7.57 L or 2 gals of water**
- **12.78 gm or 1 tbsp Soda Ash 58% Dense (Fixer)**
- **2.5 gm or 1/2 teaspoon of surfactant: dish washing soap**
- **12.78 gm or 1 tbsp TDO Colour Remover**

Add the fabric and heat to a boil. While the mixture is simmering, add an additional 1/4 teaspoon of TDO Colour Remover every 15 minutes for an hour. (1 extra teaspoon total). Stir gently and simmer for another 15 minutes. Remove and rinse well.
